CAREER OBJECTIVE

Computer Science and Engineering graduate with proficiency in programming and problem solving using Java, Python, SQL, OOP, DSA, and full-stack development technologies. Aspiring for a Junior Software Engineer or Java Developer position where I can contribute to developing quality software solutions by applying my technical knowledge to practical problems.

SKILLS

Programming: Java, Python
Cloud Computing: AWS Fundamentals, Cloud Computing Concepts, Virtualization
Backend: Java, Spring Boot, Hibernate, JDBC, Java Servlets, JSP
Database: MySQL, SQLite, PostgreSQL
Core: Object-Oriented Programming, MVC Architecture, RESTful APIs
Tools: Git, GitHub, VS Code, Eclipse IDE, Postman

INTERNSHIP EXPERIENCE

Java Full Stack Intern | KodNest, Bengaluru *Feb 2026 – May 2026*

- Completed a Java Full Stack Development Internship, gaining practical knowledge and exposure to Java, HTML, CSS, React.js, MySQL, SQL, and REST APIs.
- Designed and created database-driven, responsive web applications using Object-Oriented Programming (OOP) techniques and relational database concepts.
- Created AI-based applications using Prompt Engineering and Generative AI, while strengthening debugging and problem-solving skills.

PROJECTS

Resume Screening Application
Python, Natural Language Processing (NLP), Streamlit, TF-IDF, Cosine Similarity

- Designed an AI-based resume screening application using Python, NLP, and Streamlit to support resume parsing, candidate skill matching, and job-description matching.
- Applied TF-IDF and cosine similarity to develop a candidate-scoring approach and created an interactive Streamlit dashboard to help recruiters evaluate candidates.

E-Commerce Website *Mar – Jun 2026*
HTML5, CSS3, JavaScript, React.js, Spring Boot, Hibernate, JDBC, MySQL
Project Live: https://ecommerce-gmail-auth.vercel.app/

- Engineered a full-stack E-Commerce platform using React.js, Spring Boot, Hibernate, REST APIs, and MySQL, implementing authentication, product discovery, cart management, checkout, and order placement workflows.
- Developed scalable RESTful services and relational database integration for users, products, categories, carts, orders, and order items, implementing robust CRUD operations.
- Enhanced the shopping experience through product search, filtering, responsive interfaces, and admin management, and successfully deployed the application on Vercel.

ACHIEVEMENTS

- Developed an AI-based Resume Screening Application incorporating resume parsing, skill matching, and job-description matching using NLP and similarity techniques.
- Built a Virtual Mouse using real-time hand gesture recognition, enabling touchless pointer movement, clicking, scrolling, and drag-and-drop operations.
- Applied AI, natural language processing, and computer vision concepts to develop practical software project solutions.

EDUCATION

Bachelor of Technology in Computer Science & Engineering **2026, CGPA: 9.30**
Sharnbasva University, Kalaburagi, Karnataka
12th Grade (Pre-University) **2022, 86.5%**
SC Gurukula Residential Pre-University College, Bidar, Karnataka
10th Grade (SSLC) **2020, 88.32%**
Sri Shiva Yogeshwara High School, Bhatambra, Karnataka

CERTIFICATIONS

- Python Programming Language
- Java Full Stack Development Internship Certificate – KodNest
- AWS Academy Cloud Foundations
- Java Full Stack Developer — Besant Technologies, Electronic City (July 2026)
